THANK YOU, DENNIS HEAD!

The Florida Dental Association (FDA) would like to thank the FDA Services (FDAS) Board of Directors, employees and clients for supporting organized dentistry. In the last 10 years, the sales of superior insurance products to dental practices have raised more than \$16 million in non-dues revenues, all while keeping malpractice insurance premiums lower than they were when FDAS started in 1989. The FDA encourages all Central Florida members to use Dennis Head for their practice insurance needs and continue to support organized dentistry.

Celebrating Contributions of \$16 Million in 10 Years

PRESIDENT'S MESSAGE

Dedication, Passion and Camaraderie

Roderick M. MacIntyre III,
D.M.D., M.S.
President

As my tenure as the President of the Central Florida District Dental Association draws to a close, I want to say that I have thoroughly enjoyed the experience. As I reflect on the past year, I am reminded of the immense dedication, passion, and camaraderie that define our association.

First and foremost, I extend my heartfelt appreciation to every member of our distinguished association. Your commitment to excellence, professional integrity, and patient care continues to inspire me and uplift our entire dental community.

I am ever grateful to the current and past members of the Executive Committee for their guidance, support, and relentless pursuit of our shared vision. Your visionary leadership and strategic insights have been instrumental in steering our association towards greater achievements and ensuring that we remain at the forefront of organized dentistry.

To our member delegates, trustees, and executive director, I extend my sincerest gratitude for your service and commitment to advancing our mission. Your dedication, expertise, and advocacy have been the driving force behind our collective success in the 17th District and the ADA!

One of the most rewarding aspects of my presidency has been the opportunity to embark on affiliate visits and reconnect with old friends and colleagues while forging new bonds within our vibrant dental community. Each affiliate visit

has been a testament to the diversity, resilience, and spirit of our association. I am honored to be a part of such a dynamic and inclusive community.

I would also like to take this opportunity to highlight the key insights and developments from the recent Florida Dental Association's Capital Report. The report underscores the critical importance of advocacy, collaboration, and proactive engagement in shaping the future of our profession. Please take a look at our recent legislative accomplishments and be sure to thank our hardworking PAC, GAC, LCDs and lobby team for protecting our profession. As champions of dental health and wellness, we must remain vigilant and proactive in advocating for policies and initiatives that promote access to quality dental care for all.

Looking ahead, I remind you of the upcoming Central Florida District Association's Annual Meeting, which will be held at the picturesque Hammock Beach Resort on May 3-4, 2024. This event promises to be a celebration of excellence, innovation, and collaboration. I encourage each and every one of you to mark your calendars and join us for what promises to be an unforgettable experience. I hope our members and their teams are registered and continue to fill our hotel room block. (See pages 10-12.)

In closing, thank you again for the privilege and honor of serving as your President. Here's to a bright and prosperous future filled with endless possibilities and unparalleled success!

Sincerely,

Roderick M. MacIntyre
President, CFDDA

DENTISTRY HAS CHANGED OVER THE YEARS, OUR COMMITMENT HASN'T.

The transition ahead may seem new and uncertain, similar to when you began your practice, but we understand the process.

As your local Transition Sales Consultant at Henry Schein Dental Practice Transitions, I'll guide you along the way.

STRIVING TO BE YOUR LAST BUSINESS BANK

BANKING ON RELATIONSHIPS

WE CAN HELP YOU GAIN A COMPETITIVE EDGE

Unlike mega-institutional banks, your team at Affinity Bank allows you to spend time doing what you love. Not only do we make it easy for you to manage and access your money, but we also go the extra mile. Make the switch to Affinity Bank where we have been making our dentists smile since 2002.

COME SEE US AT THE ANNUAL CFDDA MEETING, MAY 3-5.

Proud to share a client testimonial:

“ Affinity Bank is hands down the most client driven bank. I worked with Tara from start to finish from acquiring a practice loan and setting up our business checking account. Her team at the bank is unrivaled. Glad to have found them early in my career to help save time and money. ”

~ Dr. Darshan Patel, Daytona Beach Fla

FLORIDA BOARD OF DENTISTRY REPORT

From the Florida Dental Association

FDA Chief Legal Officer Casey Stoutamire

The Florida Dental Association (FDA) was represented by Board of Dentistry (BOD) Liaison, Dr. **Steve Hochfelder** and Chief Legal Officer, Casey Stoutamire. Drs. **Joe Calderon**, **Jim Haddix**, and **Chad Marshall** were also in attendance.

BOD members present included: Dr. **Jose Mellado**, Chair; Dr. **Nick White**, Vice-Chair; Drs. **Christine Bojaxhi**, **Brad Cherry**, **Tom McCawley**, **Claudio Miro**, and **TJ Tejera**; hygiene members, Ms. Karyn Hill and Ms. Angela Johnson; and consumer members, Mr. Fabio Andrade and Mr. Ben Mirza.

The Board heard a petition for variances or waivers. This petition asked the Board to waive a BOD rule in a particular instance; the Board can only waive a rule, not a statute. The petition requested a waiver from the rule requiring all anesthesia permit holders to submit documentation of actual clinical administration of anesthetics to 20 dental or oral and maxillofacial patients for two (2) years prior to applying the particular type of anesthetics for the permit applied for. The Board granted a waiver because the rule allows for a pediatric moderate sedation permit applicant to submit cases more than two (2) years prior to submission of the application if he/she completes safe and effective sedation for the pediatric patient course within six (6) months of the submission of the application. As part of the waiver, the Board required this applicant to complete the four-hour Association of Maxillofacial Surgeons (AMOS) Simulator Course since he was applying for an anesthesia permit.

The Board approved an update to Rule 64B5-17.001, Required Availability of Dental Records Upon Relocation or Termination of Practice or Death of Practitioner. The new rule language is below. Please note this rule is not yet effective as it still has to move through the administrative rulemaking process. However, the FDA recommends that you comply with this rule now as it relates to notifying your patients on how they can obtain their records.

64B5-17.001 Required Availability of Dental Records Upon Relocation or Termination of Practice, or Death of Practitioner.

(1) Patient records are confidential and may not be released unless authorized by the patient in writing. This confidentiality prohibits review of the records by a dentist other than the dentist of record or by other health care providers unless they are actually involved in care or treatment of the patient. Maintenance of patient records by a deceased dentist's estate, authorized agent of the estate or by a successor-owner dentist of a practice does not authorize review of patient records. However, limited review for the purpose of obtaining a patient's name, address, and last date of treatment in order to comply with this rule is permitted.

(2) Within 90 days of a dentist's death, the dentist's estate or agent shall place all patient records of the deceased dentist in the care of another Florida licensed dentist.

(a) The patient records of the deceased dentist shall be maintained and made available to patients for a period of four years.

(b) Within 90 days of a dentist's death the dentist's estate or agent shall cause a notice to be published in the newspaper of greatest general circulation in the county where the dentist practiced, [or a prominent notice on the deceased dentist's websites](#), which advises patients of the dentist's death. The notice shall advise patients that they may obtain copies of their dental records and specify the name, [physical address](#), [email address](#) and telephone number of the person from whom the copies of records may be obtained. The notice shall appear at least once a week for four consecutive weeks. The website notice shall appear for at least four consecutive weeks.

(c) The subsequent Florida licensed dentist shall cause to be published a similar notice whenever the patient records of the deceased dentist are subsequently transferred to another licensed Florida dentist if such transfer is within four years of the dentist's death.

(d) During the four year retention period required by this rule each licensed Florida dentist who is in possession of the deceased dentist's patient records shall insure that the original patient records, or in cases where the patient has requested that the records be released or transferred, copies thereof remain in his possession.

(3) Dental records of a practitioner who is terminating or relocating his practice shall be retained by the dentist or his authorized agent, which may be a successor-owner dentist, and made available to patients for 4 years from the date the patient was last examined or treated.

(4) Within one month of a dentist's termination of practice or relocation of practice outside the local telephone directory service area of his or her current practice, a notice shall be published in the newspaper of greatest general circulation in the county where the dentist practiced, or [a prominent notice on the deceased dentist's websites](#), which advises patients of the dentist's termination of practice or relocation. The notice shall advise patients that they may obtain copies of their dental records and specify the name, [physical address](#), [email address](#) and telephone number of the person from whom copies of records may be obtained. The notice shall appear at least once a week for four consecutive weeks. [The website notice shall appear for at least four consecutive weeks.](#)

TAKE TIME, MAKE TIME ... FOR YOU!

Dr. Vrinda Shah
Editor

Do you feel the sun peeking through the fluffy white clouds? Do you feel the days stretching and feeling fuller? Florida's short-lived winter is giving way to beautiful days, and I hope everyone is taking more time to enjoy the vitality that comes with spring months and warm sunshine.

Dentists get so caught up in the minute details of millimeters that our mental bandwidth gets stretched thin between mandibular and maxillary arches. Add to that the stress of running a dental practice, keeping up with industry trends, and family obligations — it's no wonder we attempt to chomp through stress like determined beavers.

Diagnosis:

Overworked and exhausted dentists. Zero enamel is a sure way to lead to decay.

Treatment Recommendations:

Schedule breaks. Attend a show, go for a run, take a yoga class, call a friend, get away for a single day, whatever your heart desires. Pour into yourself to continue taking care of all those who depend on us with joy and gratitude. You'll have more energy to keep those mouths in top shape.

So, if you haven't already, here's your formal notice to take time for yourself, and floss out your joints. It's also a reminder to sign up for the CFDDA Annual Meeting at Hammock Beach. Life is truly about balance, so our CE is scheduled in the morning, allowing for relaxation in the afternoons. Need I say more? See you there!

Best,

Vrinda

Dr. Howard L. Pranikoff Leadership/Educational Memorial Scholarship

Dr. Howard Pranikoff was an ardent supporter of organized dentistry and held many leadership positions throughout his years as an American Dental Association, Florida Dental Association, and Central Florida District Dental Association (CFDDA) member.

The CFDDA remembers and honors Dr. Pranikoff by establishing the Dr. Howard L. Pranikoff Leadership Educational Memorial Fund to provide leadership training to young members.

Contributions are now being accepted.

FLORIDA BOARD OF DENTISTRY REPORT

(Continued from previous page)

After a discussion of various bills affecting the practice of dentistry being heard during the 2024 Legislative Session, the Board passed motions directing Board staff to do the following:

- Write a letter of support for the dental licensure clean-up bill. (The FDA also supports this bill)
- Write a letter of opposition for the dental therapy bill. (The FDA also opposes this bill)
- Write a letter of concern for the licensure by endorsement bills emphasizing the need for language requiring graduation from a CODA-approved school for dentists and hygienists. (The FDA shares these concerns)

All the letters will be sent to the bill sponsors, the Florida Speaker of the House, the Florida Senate President, and the Office of the Governor.

Finally, this was Dr. Tejera's last meeting as he has served his statutorily maximum ten years. The FDA thanks Dr. Tejera for his service and leadership during the last ten years.

There were 11 disciplinary cases, two informal hearings, one petition for removal of restriction and commencement of probation and one voluntary relinquishment that included, among other things, incorrect implant placement, incorrect crown placement, bribery of a state senator in Arkansas and poor record keeping.

It is much better to be a spectator than a participant in BOD disciplinary cases. The next BOD meeting is scheduled for **Friday, May 17, 2024** at 7:30 a.m. in Jacksonville.

- 10:35 a.m. – 12:30 p.m. Lectures Continue

CE Vouchers will be distributed at the conclusion of each lecture that qualifies for CE. ONLY returned CE vouchers will be reported to CE Broker.

The CFDDA reserves the right to revise the meeting schedule as needed.

LECTURE DESCRIPTIONS

Designations: D-Dentists, H-Hygienists, A-Assistants, O-Office, L-Lab Technician

Friday, May 3, 2024

Dr. Gerard Lemongello - 4 CEUs for D, H, A, L *A Systematic Approach to Comprehensive Treatment Planning for Aesthetics and Function* - Mastering

Treatment Planning for Aesthetics and Function can be challenging. One of the most challenging areas for most dentists is the process of combining the aesthetic examination with the principles of the functional examination to create a treatment plan for success. This program is designed to simplify the entire process from examination through presentation and will provide a systematic, step-by-step approach to treatment planning. It integrates esthetics, occlusion, restoration, and periodontics into a logical format that provides confidence in developing the final treatment plan.

Participants will learn:

- How to complete a comprehensive exam.
- What a complete examination must include.
- Information you must have from the exam prior to treatment planning.
- The four major areas that need to be considered in treatment planning.
- Facial esthetics and evaluation of how the face alters esthetic planning.
- The esthetic factors that must be addressed in planning.
- The role occlusion plays in modifying the esthetic plan.
- Periodontal considerations necessary to treatment plan for success.
- How to determine if orthodontics is a necessary part of the plan.

Advanced Case Planning and Treatment - This segment of this course will include the diagnosis and treatment of the complex case. The principles illustrated will be shown in a step-by-step manner from initial exam to completion of the case. Cases presented will include: Full mouth case with and without change to vertical dimension; the Class II Division II crowded case; the severe wear case; the Class III case.

Participants will learn:

- How to complete a diagnostic work up and what it includes.
- Creation of the diagnostic wax up.
- All necessary stents, guides, and matrices to aid in preserving or altering vertical dimension of occlusion.
- Preparation design for veneers, veneer onlays, or full coverage crowns.
- Bite registration involving full mouth restoration including cross mounting provisional models and the custom incisal guide table.
- Fabrication of the provisional.
- Impression techniques.
- Final case insertion and management of occlusion.

CFDDA Officer Installation/ Beach Party!

Friday, May 3, 2024 • 6:00 p.m. - 7:00 p.m.

Join us as we install the incoming officers for 2024-2025 and then celebrate with a fun, relaxed beach vibe party!

ALL REGISTERED MEETING ATTENDEES ARE INVITED!

Location: South Tower Pool Deck

Dentists: Visit the FDA Services, Inc. table in the exhibit area for an additional drink ticket!

Saturday, May 4, 2024

- 6:30 a.m. – 8:00 a.m. Registration Opens/Badge Pick-up
- 7:00 a.m. – 8:00 a.m. Coffee/Light Breakfast & Exhibits Open
- 8:00 a.m. – 10:00 a.m. Lectures:
 - Dr. Gerard Lemongello – *Implant Aesthetics: Diagnosis and Treatment Planning for Predictable, Functional and Esthetic Results*
 - Tija Hunter, CDA, EDA – *Pet Peeves & Taming the Beast: How to Schedule your Day and Leave Happy!*

Dr. Gregory Oxford – 4 CEUs for D, H

Fate Follows the Furcation - The population is living longer, retaining more teeth for longer periods, thus dental practitioners are challenged now more than ever to assess the health, longevity, and prognosis of teeth. Posterior dentition may be the most difficult to assess and may be the most important. This program explores the etiology, evaluation, diagnosis, and classification of furcation defects with clinical, radiographic and CT/CB approaches. The program also provides the participant the opportunity to practice with hands-on clinical probing with models to accurately diagnosis furcation. Dr. Oxford will then discuss the treatment options, including traditional, regenerative and laser periodontal therapy. He will discuss the statistics and prognosis of the treatments decisions for teeth with furcation invasions. He will also discuss future directions utilizing stem-cell regenerative therapies.

Periodontal Maintenance of Dental Implants - The increase in dental implant therapy has been exponential in the last twenty years, however our knowledge on how to maintain the health of the fixtures has not kept pace. This program will define the components of an implant system, review an assortment of implant systems, and explore some of the most accepted methods of patients and professional maintenance. Recommendations of oral hygiene measures will be given. Additionally, this course will review the parameters of health between natural teeth and implant fixtures and discuss state of the art monitoring techniques to help ensure maintenance of health of the dental implant.

Tija Hunter, CDA, EFDA, CDIA, CDSO, MADAA – All Audiences

Learn, Leverage, and Lead - All dental team members are leaders, you don't always see yourself that way, there are no titles or labels. Each team member is vital to the success of the practice and with a little direction, and the right attitude, they can have an amazing impact on the practice. We will discuss how to bring out your inner leader to push your practice and yourself in amazing new ways.

Rock Star Dental Assistant - Dental assistants spend more time with the patients than any other team member, so let's educate that assistant to be the best they can be to help your practice excel!

- **MARKETING:** Let's talk about ways we can maximize our relationships with your patients and other team members.
- **TEAMWORK:** Accelerate your role within the practice.
- **COMMUNICATION:** Discover key ways to assist you and the practice be a success.
- **ORGANIZATION:** Establish systems and methods for cutting cost and staying on top.

■ **Saturday, May 4, 2024**

Dr. Gerard Lemongello - 4 CEUs for D, H, A, L

Implant Aesthetics: Diagnosis and Treatment Planning for Predictable, Functional and Esthetic Results - Mastering the art of predictable implant aesthetics can be challenging. In order to achieve lifelike, functional results the clinician must first master the art of diagnosis and treatment planning. With the appropriate diagnosis and treatment plan, the next critical step is executing the treatment in a logical systematic way, managing expectation of the patient and achieving exceptional results. One of the most stressful areas for most dentists is the process of creating a beautiful provisional that will guide tissue and predictably achieve the aesthetic outcome for the final restoration in the aesthetic zone. Combining the use of a custom fabricated provisional abutment, provisional restoration and a custom fabricated impression coping many of the aesthetics challenges can be addressed. This program is designed to simplify and streamline the entire process of diagnosis, treatment planning, implant provisionalization, and final restoration. It will provide a systematic, step-by-step approach to mastering the critical skills in restoring implant cases. It integrates the techniques necessary in a logical format that provides confidence in developing the final restorative outcome.

Participants will learn:

- Proper treatment planning for esthetic success.
- Comparison of Implant Systems and their predictably. Choosing the right implant.
- The esthetic factors that must be addressed in planning.
- The role occlusion plays in modifying the treatment plan and esthetics.
- Periodontal considerations necessary to treatment plan for success.
- Why it is necessary and how to guide and support soft tissue during the provisional stage.
- How to fabricate a custom provisional healing abutment.
- How to fabricate a custom provisional abutment and provisional restoration.
- Screw retained vs. cement retained provisional.
- How to fabricate a custom impression coping and why it is necessary for predictable results.
- Benefits of immediate provisional.
- Laboratory fabricated provisional vs. custom fabricated provisional. Advantages/ disadvantages.
- Custom provisional techniques for immediate implant placement.
- Custom provisional technique after traditional implant healing.

Tija Hunter, CDA, EFDA, CDIA, CDSO, MADAA – All Audiences

Pet Peeves - We all have them, but how do we deal with them? This fun course talks about the issues we all face in a dental office daily. And we will also discuss ways to better communication, dealing with the stress of it all and making our day flow better!

Taming the Beast: How to Schedule your Day and Leave Happy! -

It's hands down one of the hardest things to accomplish in your day. Getting it right makes your day flow so much better!

From Drab to Fab - We don't always see how tired and outdated our offices look to that new patient, but they sure do! With little sprucing up, you can make a huge impact on the impression you leave on your patients! Your atmosphere is everything! From doing a new build out, or just doing a refresh of your existing building, we can create a better workflow and cozy atmosphere!

Florida Dental Association Hands-On Workshop

Please register separately for this course below using QR code. You may register for both meetings; but must register and remit payment below for this special course.

■ **Friday, May 3, 2024 • 1:30 p.m. - 5:00 p.m.**

Dr. Alex Delgado, DDS, MS

Mastering Porcelain Veneers: Indications, Techniques, and Hands-on Experience - The course delves into the discussion of different materials and cementation methods and includes hands-on components where participants can practice veneer preparation, provisional fabrication and veneer cementation. Attendees will gain invaluable insights into effectively managing aesthetic cases, leading to outstanding results.

Seating is limited to 15 dentists, so register early to secure your seats! After the completion of these courses, 3.5 CE credit will be reported to CE Broker on your behalf for all Florida-licensed attendees.

Registration Fees:	Early 3/29	Regular
Dentist - FDA/ADA Member	\$359.00	\$379.00
Non-Member Dentist.....	\$379.00	\$399.00

Fun UF Event!

The Central Florida District Dental Association, along with the Florida Dental Association, hosted a D3/D4 event on Thursday, January 25, 2024. The dental students were invited to a panel discussion, followed by a social event

at Swamp Head. Thank you to our outstanding panelists, Drs. **Dylan Battle**, **Gregory Chace**, **Summer Young**, and **Darshan Patel**. Greg Gruber, FDA Chief Operating Officer/Chief Financial Officer, moderated the discussion which touched on a variety of topics. Also attending, Kerry Gomez-Rios, FDA Director of Member Relations, and Marlinda Fulton, CFDDA Executive Director, as well

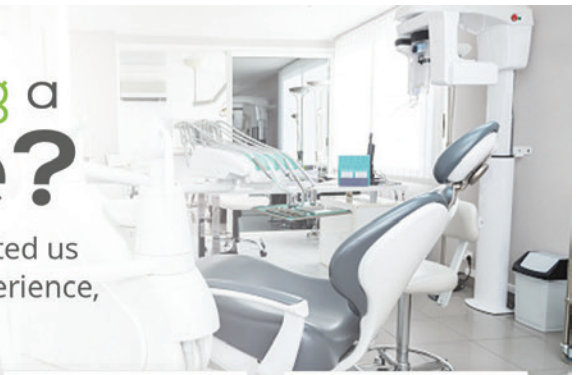

as many CFDDA members! Thank you to all who attended and visited with the dental students.

Congrats to **Daria Muklewica** (D3), winner of the CFDDA drawing for a \$50.00 American Express gift card.

Thinking About **Buying or Selling** a **Dental Practice?**

Contact us to find out why thousands of dentists have trusted us with the sale of their legacy. We have over **33 years** of experience, 12 state-wide local agents, and **over \$800 Million** in sales.

THE VILLAGES/MARION COUNTY incl. PRACTICE and REAL ESTATE! \$300K Fee for service General Dental Practice, equipment, and 950 sq. ft. building on an acre of land on bustling US 301. Modern digital office has two equipped operatories and an additional plumbed. 250 scheduled re-care patients. Guaranteed immediate income and plenty of room to expand. Perfect for satellite or specialist. Family obligations necessitate sale of practice. vinylidoc@hotmail.com. 407-694-8107

CENTRAL FLORIDA: Looking for a Dental Specialist wanting to share office space (sublease) with an established orthodontist as a new practice or 2nd location. Turn-key operation, without capital investment of starting from scratch. Serious inquiries only. smileorlando2013@gmail.com

■ Associate Needed

ASSOCIATE DENTIST NEEDED - Dental Creations of Daytona Beach - Seeking an enthusiastic associate dentist to join our team. Privately owned group practice with 4 doctors located in Daytona Beach, Florida. We are looking for a dentist with a strong work ethic, who has great patient rapport and communication and practices high quality dental work with a passion for dentistry. The professional and friendly staff in our beautiful dental office offers all facets of general dentistry: Sedation dentistry, extractions, implant placement and restorations, Invisalign, sleep dentistry, laser, crown and bridge and full arch restorations. We utilize multiple forms of technology including the use of CEREC, iTero, CBCT, Implant Placement and Waterlase as well as digital radiographs and an almost completely paperless practice. The growth of the office necessitates us hiring an additional dentist and we would like the dentist to be proficient in all basic facets of dentistry and willing to learn more. We are a team centered office so being a team player is an absolute must. We offer a competitive salary with health insurance, retirement planning and a bonus structure all with a great long term team who is here to support you.

Please visit our website at www.dentalcreationsofdaytona.com and send your resume to frontdesk@dentalcreationsdb.com or call us at 386-274-1450. We look forward to hearing from you!

ASSOCIATE NEEDED. General dentist needed in a well-established solo small town practice. Enjoy providing quality care for patients in a non-corporate fee for service setting. Opportunity to acquire practice as owner moves toward retirement. Inquire at: myers10925@bellsouth.net

INTERESTED IN PURCHASING: I am a young super-GP, looking to transition from associateship to being a practice owner near Orlando and suburbs. I will be interested in purchasing your practice or joining as a partner/cost-sharing basis. If you are retiring, slowing down, or considering moving out of central Florida, please let me know. I am very friendly, adaptable, and fun to work with. I am good at all surgical, endo, resto, and Invisalign procedures. I average 70-90k production a month in a busy office. If you have the right practice for me, please send a text to: 1-689-237-5364 and we can connect. Thank you.
